

# Case Study

## Your Name's Not Down!

Client – ISG Retail

Project - Private members club, Devonshire

Product – Steel Wire Cable Tray

Marco has supplied a combination of steel wire cable tray and dado trunking to contractors managing the transformation of numbers 4 and 5 Devonshire Square into a private members club.

The adjacent buildings have enjoyed a massive overhaul creating an exclusive venue in the heart of the city, The Devonshire Club.

ISG managed the installation, making use of a number of Marco's cable containment solutions to install the complex electrical infrastructure.

Lisa Taylor, Area Sales Manager at Marco Cable Management commented: "This is clearly a high end scheme in the capital and it is so great to see Marco make the grade!"

"We have worked on several projects with ISG Retail in and around the city in terms of both new build and refurbishment projects. The scheme is now complete and open to members hoping to become a fully-fledged member!"

The Devonshire Club is located in the West End bringing the best elements of members clubs scattered across London. Including 68 luxury bedrooms and suites, a 120 seat brassiere, champagne bar, library and cocktail bar, other features include a private garden and winter garden.
