

## Knareborough Leisure Centre install hygienic drainage solution

BLÜCHER UK were pleased to supply some bespoke channels and shower drains for a brand new leisure centre opening in the New Year.

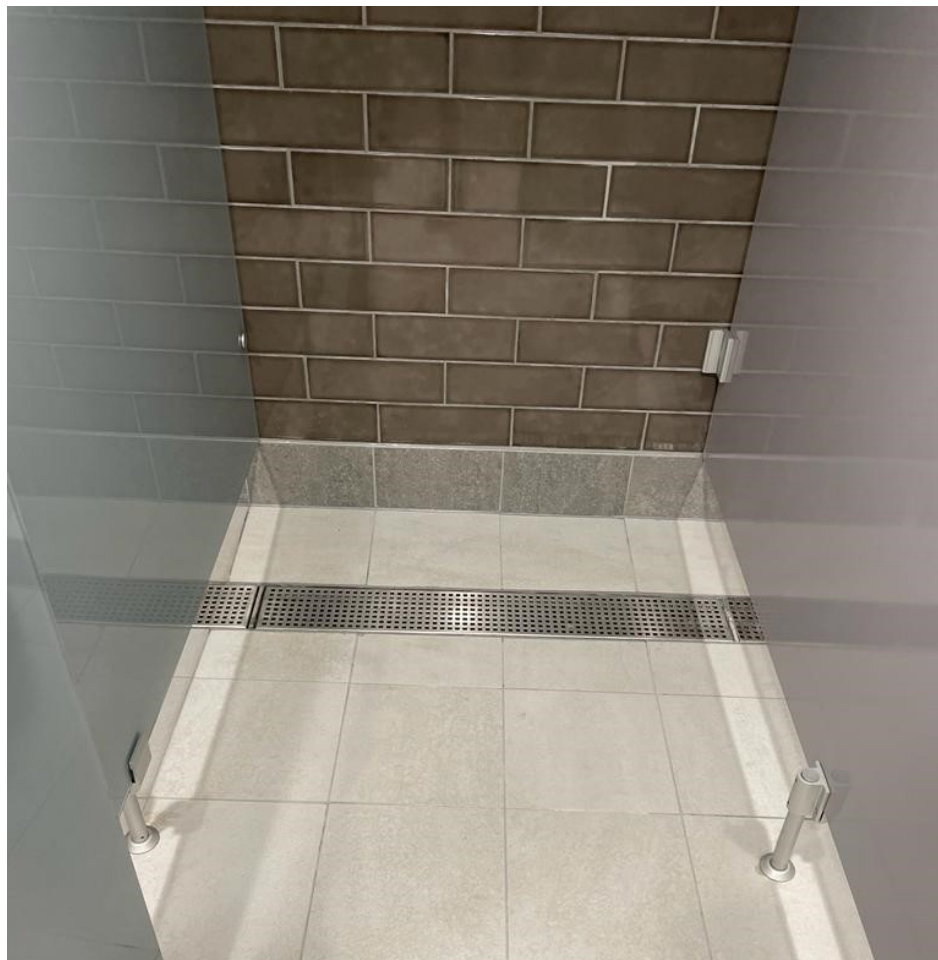

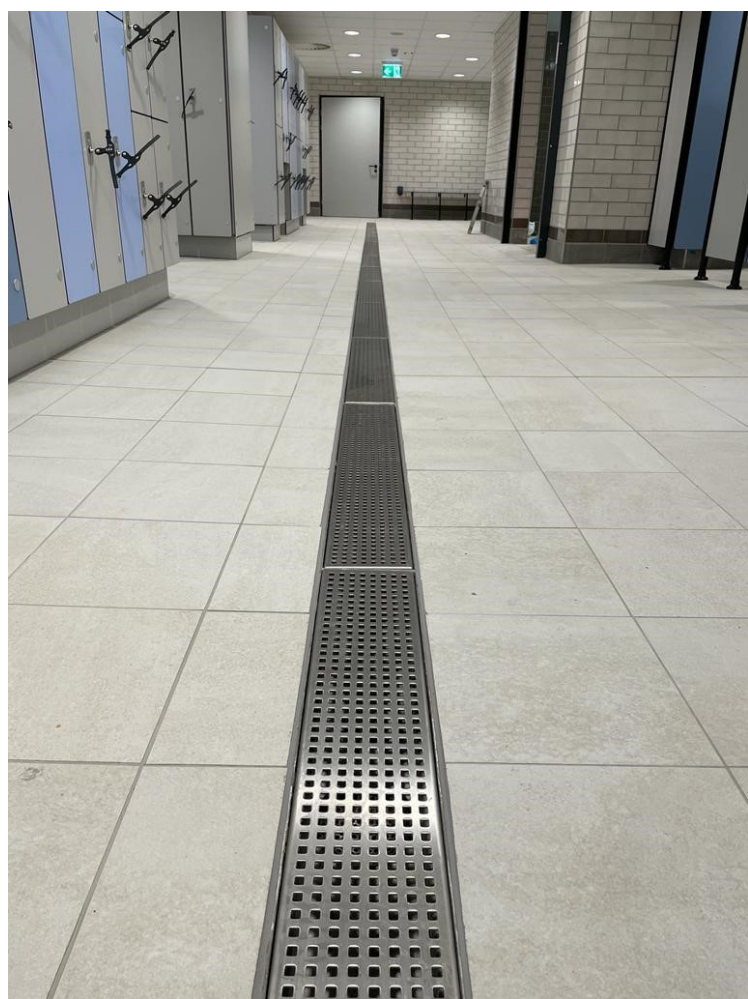

With a big range of activities and services available, including swimming pools, showers, saunas, steam rooms and communal areas, the installed drainage system needed to be robust, efficient, and visually aesthetic.

Offering a contemporary timeless design, with an exceptional flow rate, BLÜCHER channels were the best option. Minimal downtime and maintenance were required by the customer due to the high usage of the leisure centre, with a further focus on retaining a hygienic atmosphere.

Working alongside contractors ISG and GHBS, BLÜCHERs stainless steel drainage solution has provided Knareborough Leisure Centre with a fully functional drainage system, ensuring they can meet the demands of their customers while preserving a safe and hygienic environment.
