Compact Driver

The Inceptor Micro's high powered compact driver, is as small as a fire rated ceiling will accommodate. Another small detail, that makes a big difference when space is limited.
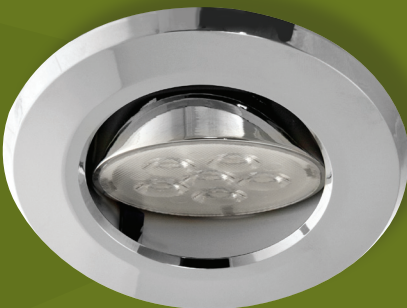

Intumescent Strip

Our trademark blue strip of intumescent adds an extra barrier of protection against fire, by expanding to fill the gap between plasterboard and light fitting.

SMD LED Technology

SMD LED's require lower current and create less heat than standard LEDs, perfect when space is at a premium.

ONE FITTING, TWO OPTIONS

Each Inceptor Micro comes with both fixed and adjustable bezels.
