

MCSSC Fast Fix Side Coupler Data Sheet

Marco's Steel Wire Cable Tray accessories have been further expanded to include a new Fast Fix Side Coupler, enabling two lengths of Steel Wire Cable Tray to be coupled together and secured within seconds, therefore reducing installation time on-site.

The innovative design allows the Fast Fix Side Coupler to be installed from inside the Steel Wire Cable Tray, allowing for ease of installation within confined areas.

The Fast Fix Side Support Coupler allows the tray to be fastened both quickly and easily, whilst meeting and exceeding earth continuity requirements to standard EN 61537.

Marco's New Coupler is made secure with one turn of a screwdriver and can be utilised with both 55mm and 106mm depth side walls (refer to compatibility below).

PRODUCT CODE:	MCSSC
PRODUCT DESCRIPTION:	Fast Fix Side Coupler
MATERIAL:	Sprung Steel
FINISH:	Geomet (GT)
ITEM WEIGHT:	16 Grams
PACK QTY:	50 + Screwdriver
MATERIAL THICKNESS:	0.90mm
