

## 13A Socket with 2x USB Outlets

Modern gadgets demand high power to charge. BG's new USB socket has an output of 2.1A (5V) shared across the two outlets - suitable for charging iPad, iPhone, tablets, mobiles, cameras and more.

As well as being practical, the sockets are easy to install featuring angled inline colour coded captive terminals, twin earth as standard and they easily retrofit into 25mm wall boxes.

### Smart USB

- Standby mode when device is fully charged
- Auto detects USB device & adjusts charging pattern to suit
- Protects the device in the event of an overload
