massage

rain effect+massage

Manual scale-proof system:

Scale deposits can be removed simply by rubbing the nipples with a finger or a sponge.

A note about anti-aerosol shower heads:

Aerosols are caused by condensation due to the difference in temperature between the water in the shower/bath (about 38°C) and the ambient temperature in the bathroom (about 22°C). As a result, the formation of water particles suspended in air is inevitable and anti-aerosol shower heads do not have any effect.

Shower head holders

- **adjustable, wall-mounted holder 840**
in chrome-plated brass.

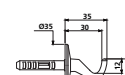

840

- **tilting wall-mounted chrome-plated holder 845**

- **handspray cradle with FM1/2" supply 844**

- **wall hook for exposed mounting, chrome-plated 1585**
for shower head 434182.

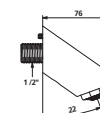

1585
