

# GridPro® Frontplates

The GridPro® Frontplates illustrated on the following pages are all unfurnished for easy and quick configuration with the required modules.

The new 1 to 24 Gang Frontplates designed for GridPro® are available from each of the existing Click® wiring accessory ranges.

These new additions to each range seamlessly match the range they belong to, including standard fixing centres allowing uniform alignment. All existing range finishes and warranties apply to the new GridPro® Frontplates.

In continuing the consistency of the range for the new GridPro® Frontplates, we have ensured all Mode™ and Polar™ products maintain the urea material to ensure consistent aesthetics and colour matching throughout the range as well as keeping the antimicrobial properties these ranges are known for.
