HDview

Introducing the new range of 4MP CCTV Kits that are packed with features, making them ideal products to satisfy the growing demand for reliable security solutions.

The systems have been designed with ease of set up as a key feature, including the option for remote monitoring via smartphone or tablet, using ESP's specially developed HDview APP.

The kits include a stylishly designed 4 or 8 channel DVR, premium quality Western Digital hard drive, cameras, camera cables, system power supply, mouse and HDMI cable.

There are a number of kit options available, including 2 or 4 camera kits, with the cameras in either a bullet or dome style and all are offered in a white or grey finish. This brings a total of 12 different DigiviewHD+ CCTV Kits available. The cameras are also sold separately.

HDview
