10AX Plate Switches (Modular) | 10AX Architrave Switches (Modular) | Dimmer Switches | Control Switches | 45A Switches | 50A Pull Switch

The range of MODE switches described in the following pages has been developed largely as a modular range based on the large selection of switch modules available in the CLICK MINIGRID Module range - see opposite page.

These same modules are fully interchangeable in other CLICK accessory ranges such as metal clad, DECO & DEFINE decorative metal as well as traditional CLICK and POLAR moulded ranges.

Simple, single screw fixing of modules offers the simplest possible means of installing and replacing modules.

Dedicated media transfer plates are dealt with in the later pages of this catalogue (see pages d18-d20) and modules in the NEW MEDIA product brochure.

MINIGRID

The products illustrated in this section of the catalogue are finished plates and unfurnished mounting plates.

For comprehensive information on the full range of modules available please refer to our CLICK MINIGRID product brochure.

We recommend the use of branded halogen lamps with all DECO dimmers. The use of inferior, non-branded lamps may require the nominal rating of the dimmer to be reduced. These dimmer switches have not been designed for use with LED lamps. However, they may be suitable for some good quality LED lamps. For further information please contact the Click Technical support team.
