Active Plus

Active

Instantaneous
Electric Showers

Find your perfect solution

The new Active range of instantaneous electric showers is the latest addition to Redring's shower offering. With a new stylish appearance and the added feature of a push button start/stop control on the Plus models, the new Active range is the ideal solution for any domestic showering application.

*Active showers are guaranteed in the UK for 2 years domestic use, excluding accessories.

Installation

The new Redring Active models offer a quick and easy installation. The multiple connection options (right hand top, bottom or rear cable access and right hand top, bottom, rear or side pipe access) enable the units to comfortably replace many market equivalents with ease. The backplates also feature multiple fixing centres which are identical to those used on previous Redring Actives, allowing the new units to directly replace the existing Active models.

Active 7.2 kW 8.5 kW

- ✓ Available in 7.2kW and 8.5kW
