

## 800 Series High Level Wall or Overdoor Fan Assisted Heaters

- High quality commercial fan heaters manufactured in the UK
- Smart modern appearance
- Can be used as a general purpose commercial space heater or as an overdoor heater

### Typical Applications

Space heating or overdoor heating in the following premises

- Shops
- Cafes
- Changing rooms
- Entrance Areas
- Community halls
- Workshops

830T with wall bracket fitted

860T with wall bracket fitted

### Features

- Smart design with attractive white paint finish
- Dual function bracket: vertical discharge (overdoor) or angled discharge (general space heating)
- Panel front on/off switch
- Pre-wired to rear-mounted terminal enclosures
- Output can be reduced from 'high' to 'low' by removing link in terminal enclosure
- Built-in electronic thermostat (830T and 860T only)
- Can be switched directly by the CS-7 switch and/or the RST-TP (do not use RST-TP with 830T or 860T)

### Heater Range

Model	kW
830	3.0
830T (built-in thermostat)	3.0
860	6.0
860T (built-in thermostat)	6.0

### Physical Data

kW	Dimension (mm)			Weight (kg)
	W	D	H	
3.0	635	108	225	7
6.0	1105	108	225	14

CS-7 switch for high/low/fan only settings

6kW heater over automatic doors in a DIY store

## Performance Data

KW		Volts	Airflow (m³/h)	dB*@2m	Recommended Mounting Height (m)	
High	Low				Min	Max
3.0	2.0	230	245	56	1.8	3.0
6.0	4.0	230	490	58	1.8	3.0

\*Noise levels are factory tested not laboratory tested

## Control Options

Type	Description	Model	Details
Switch	On/off/high heat/low heat/fan only	CS-7	Page 75
Thermostat	Tamperproof (not for use with 830T or 860T)	RST-TP	Page 72

3kW heater providing a warm welcome to customers
