

# LH-K Heating film kits for laminate and engineered wood floor

- An alternative to our LH pre-terminated films
  - Allows the professional installer to tailor a heating system precisely to a specific space
  - Provides 130W/m<sup>2</sup> power output
  - Manufactured to highest quality for complete peace of mind and backed by a ten year warranty
- See LH page 12 for applications, specification and floor build-up.

## Features

As LH except

- 500mm wide film can be cut and terminated at any point
- Kit includes sufficient components (including crimps and cables) for most standard shaped rooms.

## Kit Contents

- Roll of 500mm wide 130W/m<sup>2</sup> heating film
- 15m insulated cold lead (brown)
- 15m insulated cold lead (blue)
- 20 connection crimps
- 20 insulating discs
- 1m mastic tape
- Crimping tool
- Installation instructions.

The following items must be ordered separately (see page 12)

- I-Board-6 insulation/underlay – sufficient to cover the entire floor area
- VB vapour barrier – sufficient to cover the entire floor area
- LHT fixing tape – one roll of LHT tape for every 10m<sup>2</sup> of floor area
- Thermostat.
