## Smarter heating from the UK experts.

By working with families across Europe and our research facilities in Germany and the UK over the last 20 years, we have found the most efficient ways to control heating in real homes.

### Always at the right temperature, home or away

The 4iE does not require programming, it works with your smartphone to ensure your home is always at the temperature you want, just as you arrive and using more efficient temperatures when you're away.

If you want to use a conventional program or just want to make a quick change, the MyWarmup app is simple and easy to use.

### The most efficient settings for your home

The 4iE learns how you use your heating and the unique way your home responds to changes in temperature to calculate more efficient settings.

You will get tips with advice on comfortable temperatures that use less energy and the optimal times to turn the heating off early and still stay warm, **saving up to 25% on your heating usage.**

### Automatically on the best energy tariff, year after year

The 4iE can find you lower energy tariffs and automatically switch to the best deal. According to the Department of Energy & Climate Change, **switching energy tariff can save on average £210 per year.**

You can choose to let the 4iE switch for you automatically when a better deal is available or see the results and easily switch yourself.

## High quality design and dependable engineering, personalised for you.

The 4iE is designed to look great in contemporary and traditionally styled homes. Available in Onyx Black and Bright Porcelain, with angled chrome edges to reflect wall colours.

Personalise your 4iE with custom photo backgrounds and a range of textured skins including brushed metal and natural wood effects.

Use the large display to check the weather forecast and traffic delays for your journey before you leave home.
