

CFS-D Firestop cable disc

SIMPLE. FAST. VERSATILE.

Installing firestop around cable bundles is now easier and faster than ever before.

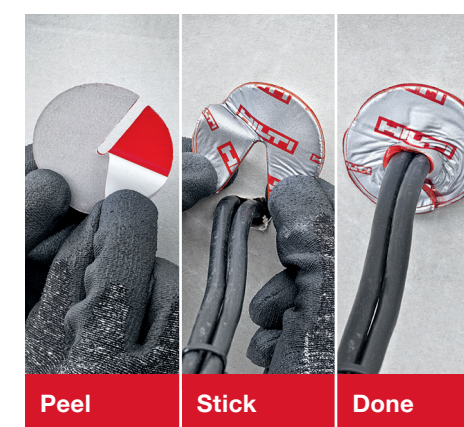

Designed for electricians, the new Hilti CFS-D Firestop cable disc can accommodate cable bundles (up to 25 mm diameter) in regular and irregular openings, with a wide range of base materials, cable and conduit types.

You will never look at firestopping in the same way again!

Each box contains 32 discs.

Simple: sealant-free with no backfill
Pre-formed, surface mounted solution with a collar-type design. Single product approach, and associated labour savings, make it really cost-effective.

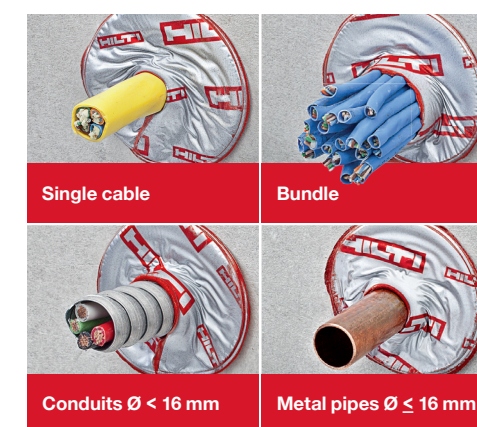

Peel

Stick

Done

Fast: install in 10 seconds or less
No need for additional tools, sealant or specialist knowledge.

Just peel, stick, done!

Single cable

Bundle

Conduits $\varnothing < 16$ mm

Metal pipes $\varnothing \leq 16$ mm

Versatile: broad range of applications
Suitable for a broad range of base materials including drywall, concrete and masonry. As well as a wide variety of cable types, conduits and metal pipes.

Peace of mind: ETA approved
Tested and approved in accordance with the latest European Standards (EN 1366-3 and ETAG 026).
