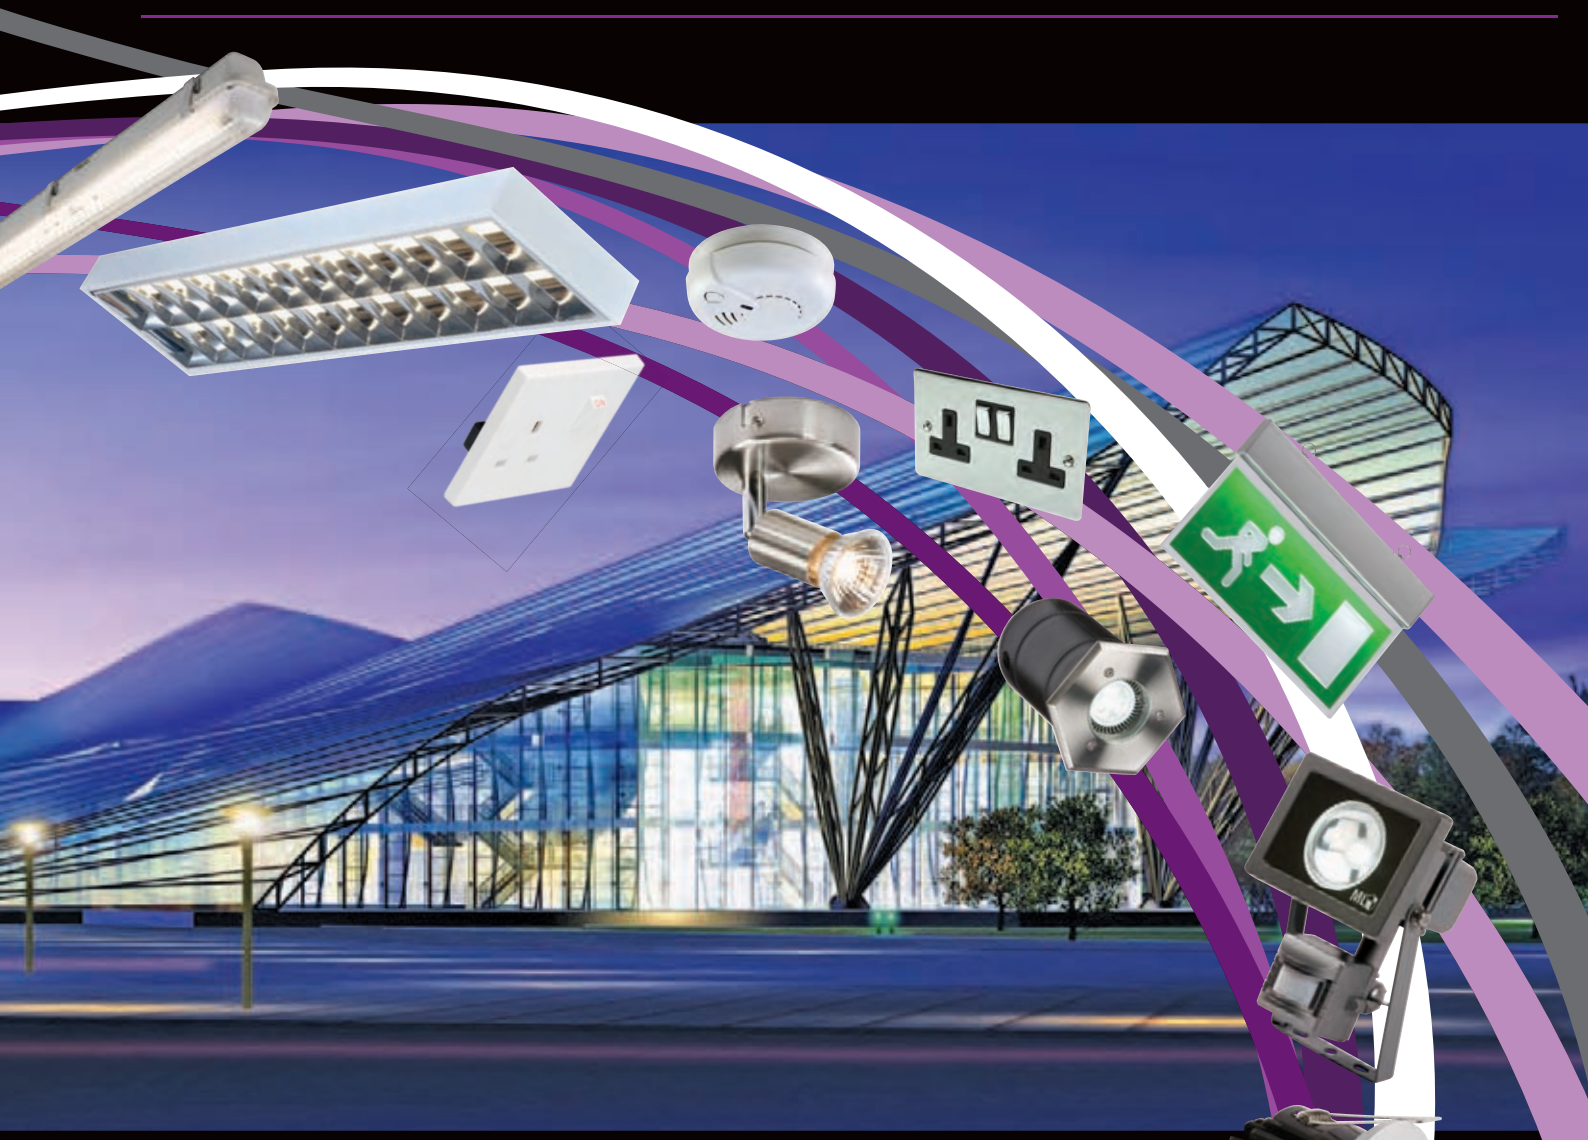
LIGHTING & WIRING ACCESSORIES VOL 9 2013



Excellence at no extra cost

ML ACCESSORIES LTD

LIGHTING INDUSTRY ASSOCIATION

Knightsbridge
the mark of quality

WELCOME TO 2013

Welcome to Volume 9 of the ML Accessories catalogue

What a wonderful way to start 2013, having achieved last year's aspirations and goals, this has now driven us to achieve even higher levels of service from all departments of ML Accessories Ltd.

We have introduced over 140 of the latest developments in the wiring and lighting industry into our ranges for 2013. Our new additional warehouse facility means we can now offer even greater stock levels and continue to offer our next day delivery service, as standard (across mainland UK) - a very strong feature of our family run company.

Our dedicated customer service is something we have never compromised on, and is in fact an ethos that keeps us above all others in our field, and I am delighted that we are still known for striving for excellence at no extra cost - not only is this our motto but also our continued promise!

As always, we recognise that our customer's continued support and loyalty ensures the Knightsbridge brand will always prove to be 'The Mark of Quality'.

Warmest regards,

Arie Rosenfeld
Founder and Managing Director

How to specify Black or White inserts

To specify Black or White inserts to a product, please add B (Black) or W (White) after the product code: i.e. FT7BCW = Brushed Chrome White insert or FT7BCB = Brushed Chrome Black insert.

All products are available with white inserts. Black Inserts available for Polished Brass, Brushed Brass, Brushed Chrome and Polished Chrome.

All flat range products come with a choice of 30mm or 50mm fixing screws.

Polished Chrome with White or Black Inserts

Brushed Chrome with White or Black Inserts

Polished Brass with White or Black Inserts

Brushed Brass with White or Black Inserts

Pearl with White Inserts Only

DM RANGE

CLASSIC RANGE

ORDERING FROM OUR CLASSIC RANGE

Our Classic wiring accessories range comes in 4 styles: Victorian, Georgian, Mirror Chrome & Brushed Chrome.

The following letters included in the product code denotes the style of the fitting.

Vxxxx	=	Victorian Style
Gxxxx	=	Georgian Style
Cxxxx	=	Mirror Chrome
CxxxBR	=	Brushed Chrome

SPECIFYING BLACK OR WHITE INSERTS

Our Classic wiring accessories come complete with black inserts as standard.

If you require white inserts simply add a **W** to the end of the product code.

e.g **C0400W** = a mirror chrome telephone master socket with white insert.

ALL our classic range come boxed in singles and prices are on page 20/21 of our price list

Victorian shown with white insert.

Georgian shown with black insert.

Mirror Chrome shown with black insert.

Brushed Chrome shown with white insert.

ALARMS: SMOKE, HEAT, CARBON & ACCESSORIES

SMOKE1

OPTICAL SMOKE ALARM

AC/DC operated inter-connectable optical (photo electric) smoke alarm with Test/Hush, Fitting and Battery Tamper-Resistant features. AC Power, Low-Battery, Battery Missing and 2-Colour LED Alarm Indicators. Extra loud alarm sound over 85dB. Auto-reset when smoke clears. Quick fix mounting bracket for easy installation. Environmentally friendly non-radioactive technology. RoHS Compliant. Five years limited warranty. PP9 battery required.

Code	Description	Box QTY (Inner/Outer)	Price List Page No.
SMOKE1	Optical Smoke Alarm	1/48	22

IONIZATION SMOKE ALARM

AC/DC operated inter-connectable alarm with Test/Hush, Fitting and Battery Tamper-Resistant features. AC Power, Low-Battery, Battery Missing and 2-Colour LED Alarm Indicators. Extra loud alarm sound over 85dB. Auto-reset when smoke clears. Quick fix mounting bracket for easy installation. Environmentally friendly non-radioactive technology. RoHS Compliant. Five years limited warranty. PP9 battery required.

Code	Description	Box QTY (Inner/Outer)	Price List Page No.
SMOKE2	Ionization Smoke Alarm	1/48	22

SMOKE2

CARBON MONOXIDE ALARM

AC/DC operated inter-connectable carbon monoxide alarm with Test/Hush, Fitting and Battery Tamper-Resistant features. AC Power, Low-Battery, Battery Missing and 2-Colour LED Alarm Indicators. Extra loud alarm sound over 85dB. Auto-reset when carbon monoxide clears. Quick fix mounting bracket for easy installation. Carbon monoxide concentration threshold: varying time-to-alarm – depending on concentration. Three years limited warranty. PP9 battery required.

Code	Description	Box QTY (Inner/Outer)	Price List Page No.
CARBON1	Carbon Monoxide Alarm	1/8	22

CARBON1

FIXED TEMPERATURE HEAT ALARM

AC/DC operated inter-connectable fixed temperature heat alarm with Self-Test Button plus Fitting and Battery Tamper-Resistant features. AC Power, Low-Battery, Battery Missing and 2-Colour LED Alarm Indicators. Extra loud alarm sound over 85dB. Quick fix mounting bracket for easy installation. Five years limited warranty.
PP9 battery required.

Code	Description	Box QTY (Inner/Outer)	Price List Page No.
HEAT1	Fixed Temperature Heat Alarm	1/10	22

HEAT1

PATTRESS BOX

Deep round pattress for smoke alarm range.

Code	Description	Box QTY (Inner/Outer)	Price List Page No.
SMOKEPATT	Fits Full Smoke Alarm Range	1/100	22

SMOKEPATT

From October 2010 it became a requirement of UK Building Regulations to fit a CO detector whenever a wood burning/ dual fuel stove is installed.

SENSORS

RECESSED MOUNTED PIR SENSOR

Infra Red PIR can be recessed into ceiling tiles and conventional plasterboard ceilings. Detection range of 360 degrees at 3 metres mounting height. Adjustable Lux level of 3 Lux to 1000 Lux. Max 2000 Watt incandescent lamp (resistive load). Max 1000 Watt fluorescent lamp.
Power consumption 1 Watt. Time delay 5 seconds to 4 mins.

Code	Description	Box QTY (Inner/Outer)	Price List Page No.
PIRREC311	Recessed Mounted	1/10	22

230V 50Hz | IP 20 | Ø65mm

PIRREC311

SURFACE MOUNTED PIR SENSOR

Infra Red PIR can only be surface mounted. Detection range of 360 degrees at 4 metres mounting height. Lux level 10 Lux. Max 1200 Watt incandescent lamp (resistive load). 200 Watt Fluorescent. Power consumption 0.5 Watt. Time delay 1 minute to 6 minutes. It has no minimum load.

Code	Description	Box QTY (Inner/Outer)	Price List Page No.
PIRSURF20	Surface Mounted	1/10	22

230V 50Hz | IP 20

PIRSURF20

PIR 180° SENSOR

Passive Infra-red sensor. Variable night and day sensitivity dial. Max load 1200 watt. 12 metre detection field. Time out setting: min 5 sec to max 7 mins. Wall mounted. Should be used with tungsten loads only.
W 85mm x D 95mm x H 80mm

NEMA PHOTOCELL KIT

Electronic dusk to dawn sensor. Operating range:
On - Minimum 20lux, Off - Maximum 80lux. Max load 2000 watt tungsten halogen, 2 x 400 watt SON, 3 x 150 watt HQI, 1800vA. Rated switching capacity 10 Amp. Electrical termination via bottom cable entry. Wall mounted. Should be used with tungsten loads only.
W 80mm x H 110mm, depth from wall 95mm

Code	Description	Box QTY	Price List Page No.
TRPCKIT		1	22

230V 50Hz IP 65

TRPCKIT

REMOTE MINIATURE PHOTOCELL

Thermal photodiode dusk to dawn sensor. Operating range:
On - Minimum 20lux, Off - Maximum 80lux, Max load 2000 watt tungsten halogen, 2 x 400 watt SON. Rated switching capacity 10 Amp. Ø 17mm entry hole for sensor. Electrical termination via 300mm pre-wired cable. Should be used with tungsten loads only. Wall mounted L 52mm x W 28mm x H 20mm

Code	Description	Box QTY (Inner/Outer)	Price List Page No.
TRRPC		1	22

230V 50Hz IP 65

TRRPC

CEILING/WALL MOUNTED PIR SENSORS

Suitable for incandescent/CFL/fluorescent lamps and fans.
A live and neutral feed is required for the PIR Sensors.
Timer range 1 min to 15 min. Max sensing range: 5 metres x 120° angle. Can be used with halogen lamps maximum switching load 2000W halogen, 600W fluorescent/discharge.

Code	Description	Box QTY (Inner/Outer)	Price List Page No.

BULKHEADS

The Polo is a decorative IP rated low profile luminaire for internal or external use. It can be wall or ceiling mounted.

Manufactured from tough polycarbonate with electronic control gear as standard in all models, it is supplied as standard in white. 3 further optional colour trims are available; brass, chrome or matt silver. Choose from opal or prismatic diffusers.

Twist and lock mechanism allows for easy lamp change and maintenance. Offered in two sizes 16W 270mm and 28/38W 330mm with optional emergency version in 28W.

All fittings are supplied complete with 2D 3500k lamp. (Except TPB14LED)

POLO 28W IP44 HIGH FREQUENCY

Polycarbonate construction. 2D 28W 3500k 4-pin lamp supplied (replacement lamp - product code 2D28W4P see page 152). High frequency electronic ballast. Electrical termination via 15 Amp connector block. Available with microwave sensor. Overall Ø 330mm x D 110mm.

FIRE-RATED DOWNLIGHTS

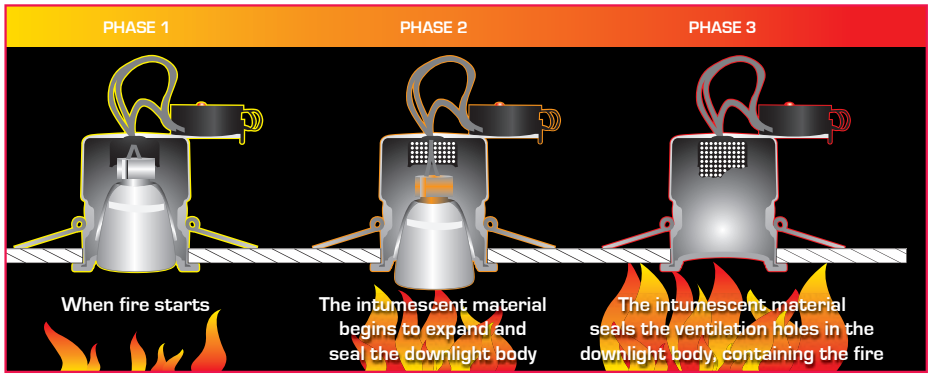
HOW A FIRE-RATED DOWNLIGHT WORKS

The ceiling systems of buildings are required to meet certain hourly fire ratings. Parts of the ceiling are usually made of fire-rated board to avoid flame spreading in the event of a fire but the cut-out hole required in the ceiling board for the recessed downlight completely voids the fire rating of the structure. Present recessed downlights are inadequate to re-establish the fire rating of the ceiling after the hole has been cut for the light fitting.

Our easy to install downlights are the recessed solution for fire-rated ceilings. When they are fitted into the ceiling they are ventilated to allow the fitting to breathe above the ceiling in ordinary situations and they maintain fire ratings in ceiling systems when on fire.

The fire-rated downlights are designed to automatically seal the ventilating holes when on fire. The intumescent disc forms a dense carbon char which shuts off heat, ventilating the holes so that fire cannot reach the next floor through the downlight.

- Best replacement for fire hood
- Meeting BS476 Part 21, 1987 Standard
- Easy installation



FIXED & TILT DOWNLIGHTS

Mains 230V Led Downlight

Fixed mounting plate with pre-wired 12vDC 300mmA LED driver. 3 x fixed cool white LED's at 1W (non replaceable). Expected 25,000hr lamp life. Double insulated fitting. Electrical termination via 10 Amp connector block within secure enclosure c/w cord grip.

low energy 12V LED Flex

SO WHAT IS LED FLEX?

LED Flex is a versatile LED light source, it is a flexible LED light strip which can be cut at 50mm (2 inch) intervals. Off-cuts can be reconnected and used elsewhere.

LED Flex is safe, low voltage, energy efficient and draws just 4.8W of power per metre.
This power consumption gives it a low working and cool to touch temperature.

It's thin profile and narrow width make it ideal for applications where fluorescent or halogen lights would be too bulky and consume too much power.

3M™ self-adhesive backing is pre-fitted to LED Flex, making it easy to install in areas such as pelmets, under cabinets, shelving areas and for use as mood/ambient lighting.

Bathroom luminaire installations must comply with legislation. This has recently been updated and is now Section 701 of BS7671:2008 (Wiring Regulations 17th Edition)

BATHROOM ZONES

ZONE 0 is inside the bath or shower itself. Any fitting used in this zone must be IP68 low voltage (max 12V).

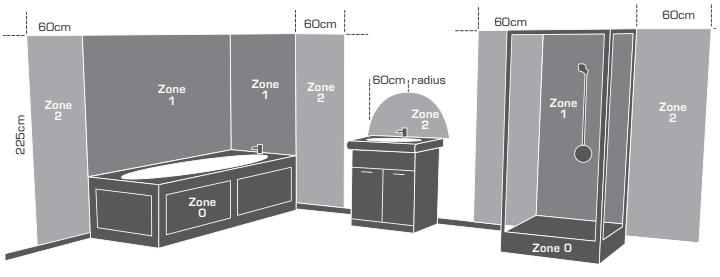
ZONE 1 is the area above the bath to a height of 2.25m from the floor. In this zone a minimum rating of IP44 is required. If the fitting is 240v a 30mA residual current device (RCD) must also be used to protect the circuit in this zone.

ZONE 2 is an area stretching 0.6m outside the perimeter of the bath and to a height of 2.25m from the floor. In this zone an IP rating of at least IP44 is required. In addition, it is good practice to consider the area around a wash basin (within a 60cm radius of any tap) as Zone 2.

OUTSIDE ZONES is anywhere outside zones 0, 1 and 2 (subject to specific limits) and where no water jet is likely to be used. No IP rating is required.

In addition to the above, if there is a likelihood of water jets being used for cleaning purposes in zones 1, 2 and “Outside Zones” a fitting rated a minimum IP65 must be used.

Full details can be found in the latest copy of IEE wiring regulations.



OUTDOOR LIGHTING

Mains Single Adjustable Wall Lights (35W Max.)

Surface mounted wall light. GU10 35W lamps Electrical termination via 10 Amp internal connector block at base. Lamps not supplied with fitting – see page 151 - product codes GU10-35 or GU10-35L. Compatible with LED GU10 lamps.

Customer Guarantee

Our aim is to deliver quality products and service in a highly professional manner at all times. We are totally committed to our customers and will endeavour to operate with honesty and integrity, trading fairly throughout our success and continuous improvement...

...and that's a promise!

Excellence at no extra cost...

The technical information given in this catalogue (including dimensions and cut-out sizes) is offered purely as a guide only and it is the company's policy to recommend that customers consult a qualified electrician. Any product that has been incorrectly installed or modified in any way will invalidate the guarantee. ML Accessories Ltd cannot be held responsible for the incorrect application of any product. E&OE.

Important: some of our outdoor lighting products may not be suitable for use in coastal areas where salt corrosion is prevalent.

Please Note: As we are constantly adding new products to our already comprehensive range, it is therefore not always possible for our price list or catalogue to be up to date until the next issue. Products offered for sale may differ from those described and portrayed in this catalogue owing to ongoing production changes and improvements.

We welcome new suggestions and comments on our current range and should you like to see a new product added to our range please do not hesitate to contact us.
