NATIONAL VENTILATION

Manufacturers and suppliers of  **monsoon** products

National Ventilation are the manufacturers and suppliers of Monsoon ventilation products.

Our team is here to help you with all your ventilation requirements, the technical telesales team based in Somerset work closely with our Area Sales team covering the whole of the UK. All of our Area Sales Engineers are trained and registered to test and commission ventilation systems through the BPEC Competent Persons Scheme. This is backed up by a design team who have vast experience in domestic, commercial and industrial projects including smoke ventilation, car park solutions and air handling units.

We can offer a full design service, site visits, consultation, quotations, and technical support all free of charge.

01823 690 290 the only number you'll need

Monsoon ventilation products are manufactured and only available from National Ventilation delivered next day, nationwide.

Quick Guide - MVHR

Mechanical Ventilation with Heat Recovery

How does it work?

A centrally located continuous running mechanical supply and extract fan extracts air via ducts from moisture producing areas or 'wet rooms' i.e. kitchens, bathrooms, shower rooms, utility rooms etc to remove odours and excessive humidity. This air is passed over a heat exchanger, which transfers a high proportion of the heat of the extracted air to the incoming air, which is then distributed to the habitable rooms via ducts.

Whole building ventilation is maintained by a constant flow of air between input and extract points. A boost facility provides rapid extraction when necessary to remove higher levels of pollutants.

Benefits

A heat recovery system can significantly reduce the space heating bill of a dwelling, putting more money in your pockets. It will assist in controlling the condensation levels in the home by removing the stale polluted air. This means a healthier and more comfortable environment for you and your family.

Condensation and associated damp problems are one of the major contributors to the maintenance cost of a dwelling. Whole house heat recovery ventilation will ultimately reduce the cost of redecoration as well as long term refurbishment caused by damp.

Beyond the clear benefits of maintenance heat recovery ventilation plays a key role in the energy efficient running of a home, achieving significant space heating

Building Regulations

In line with targets to reduce carbon emission, the Government's Standard Assessment Procedure for Energy Rating of Dwellings is now a compulsory part within the Building Regulations, which means that every new house has to have a SAP rating. Ratings can be calculated using an approved SAP calculation program by the Building Research Establishment, based on the size of the house, its insulation, ventilation, heating and hot water system.

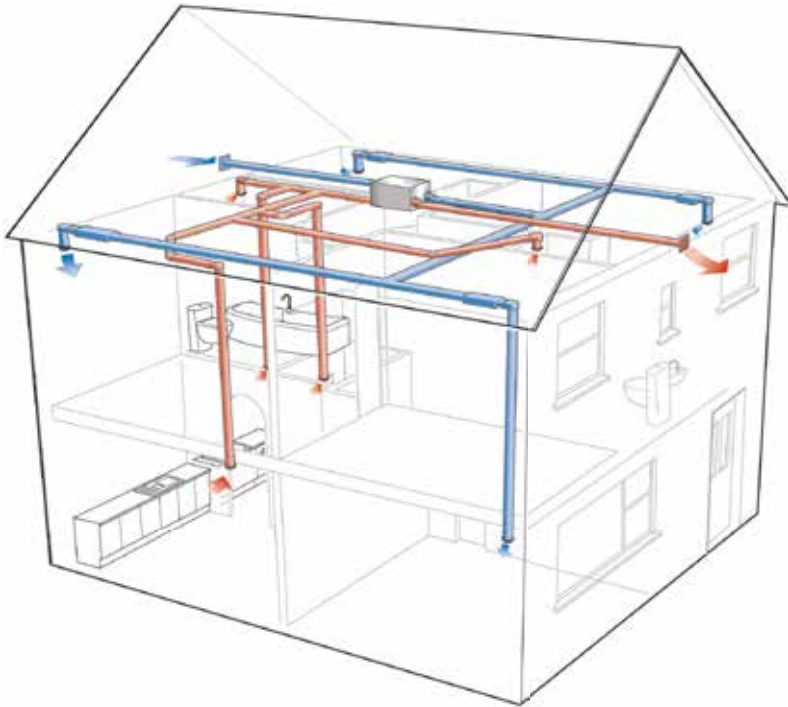

The SAP test calculates the energy consumed by a ventilation system, known as 'specific fan power' (SFP). This is expressed in Watts per litre of air moved per second (W/l/s). For heat recovery systems, the efficiency of the heat exchange is tested and this is expressed as a percentage of the heat returned to the incoming air.

The Code for Sustainable Homes (CSH) ensures Building Regulations demand the very best energy efficiency from new homes.

Code Level 1 2006 Standard Building Regulations

Code Level 6 2016 Zero carbon homes

Code level 3 is currently mandatory for private new homes and requires 25% energy saving over homes built to 2006 regulations. Many developments already require level 4, a 44% energy saving.

Monsoon Single Room Heat Recovery Unit

Features-

- 80% heat recovery efficiency even on boost
- Easy to install (no external access required) - 152mm core drill
- Continuous running trickle ventilation
- Humidity controlled with manual boost
- Balanced airflow
- Meets IEE, SELV and Building regulations

CODE	DESCRIPTION	PRICE
SHRV150	150mm Single Room Heat Recovery c/w Humidity Sensor and Manual Boost	£390.60

Monsoon Energysaver MHR100

Features:

- Ceiling mounted single room heat recovery unit
- Paper cross flow plate recuperator up to 80% efficiency
- Complete with 3 speed controller
- G4 Filters and frost protection as standard
- 4x 125mm spigots

CODE	DESCRIPTION	PRICE
MHR100	Monsoon Energysaver Loft Mounted Single Room Heat Recovery Unit, 106m ³ /hr	£346.50

Monsoon Energysaver HRU-ECO Range

Features-

- Motor options of AC and energy efficient EC version
- Cross-flow Heat Exchanger 85% efficient
- Complete with speed controller and thermostat sensor
- G4 Filters

Monsoon Energysaver Renovent Excellent Range

Features:

- Heat recovery efficiency up to 95%
- High ventilation capacity of 400, 300 and 180m³/Hr
- 400 and 300 models come with by-pass and preheater as standard
- Unit fitted with two G3 filters
- Complete, silent and low energy
- Energy efficient EC motors

Radial Duct System

Features-

- The chosen ventilation system connects to the manifold through a single inlet spigot
- The manifold acts as an air distribution unit, each outlet supplying a different room ensuring an even airflow
- Flexible, semi-rigid plastic ducting is securely connected to the outlet and runs directly to each room
- The outlet plenum enables the fixing of a standard air valve connector
- Eliminates room to room cross talk, easy and quick to commission
- Also available in kit form

Monsoon Axial D-Series

Features:

- Slim-line modern design
- 100mm & 150mm models
- Made from high quality ABS plastic
- 7 bladed quiet impeller
- 3 year guarantee
- Exceeds the requirements for UK building regulations
- Suitable for wall or ceiling mounting

100mm – 124m³/Hr

CODE	DESCRIPTION	PRICE
D100-S	100mm Standard Fan (124m³/hr)	£14.66

System 100 / Supertube 125 / Megaduct 220

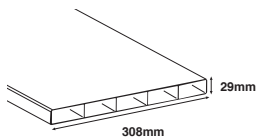

SYSTEM 100		
APPLICATION	DIMENSIONS	LENGTHS
		
Particularly suitable for applications requiring lower extraction rates, such as the ventilation of domestic bathrooms and internal WCs. Provides efficient ducting for short, simple runs.	Flat channel outer dimensions are 110 x 54mm and fit into system parts sockets. Minimum space required: 115 x 60mm.	1m, 1.5m and 2m

SUPERTUBE 125		
APPLICATION	DIMENSIONS	LENGTHS
		
Ideal for ducting of kitchen cooker hoods and fans with 100, 125 or 150mm round exhaust spigots. Highly efficient even for long runs, and with appliances of a high extraction rate.	Flat channel outer dimensions are 204 x 60mm and fit into system parts sockets. Minimum space required: 210 x 65mm.	1m, 1.5m and 2m

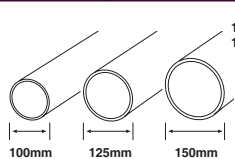

MEGADUCT 220		
APPLICATION	DIMENSIONS	LENGTHS
		
Ideal for ducting of very high powered cooker hoods especially with 150mm exhaust spigot - can also be connected to 100 and 125mm spigots. This highly effective rectangular duct has comparable airflow performance to a 150mm round duct, but with a lower profile.	Flat channel outer dimensions are 220 x 90mm and fit into system parts sockets. Minimum space required: 227 x 97mm.	1m, 1.5m & 2m

Polyvent 225 / Polyvent 300

POLYVENT 225		
APPLICATION	DIMENSIONS	LENGTHS
		
Ideal for the ducting of bath-rooms and toilets where space is very restricted. It is easily concealed and is an effective choice if other systems cannot be fitted.	Flat channel outer dimensions are 234mm x 29mm and fit directly into system parts sockets to create ducting runs. Minimum space required: 240 x 38mm.	1m, 1.5m and 2m

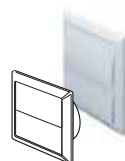

POLYVENT 300		
APPLICATION	DIMENSIONS	LENGTHS
		
Ideal for the ducting of bathrooms, toilets and kitchens where space is very restricted. It is easily concealed and is an effective choice if other systems cannot be fitted.	Flat channel outer dimensions are 308mm x 29mm and fit directly into system parts sockets to create ducting runs. Minimum space required: 315 x 38mm.	1m, 1.5m and 2m

Standard pipe 100mm, 125mm & 150mm

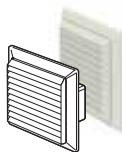

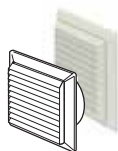

STANDARD PIPE		
APPLICATION	DIMENSIONS	LENGTHS
		
A round pipe is the most efficient airflow conduit as minimum air turbulence occurs. Consequently, standard pipe is ideal for larger fans, cooker hoods, whole-house ventilation systems, stack ventilation and air-conditioning.	System parts have spigots to fit inside 100, 125 and 150mm pipes. Available in three diameters: 100mm (core drill 107mm) 125mm (core drill 132mm) 150mm (core drill 162mm)	350mm, 1m & 2m

VSSC125PF	125mm Round Pipe to Fitting	£9.87
VSSC125PP	125mm Round Pipe to Pipe	£9.87
VSSC204DF	204mm x 60mm Ducting to Fitting	£10.71
VSSC204DD	204mm x 60mm Ducting to Ducting	£10.71

Features

- No tape and sealant required
- Simple push fit connection
- Can be removed and re-installed
- Prevents the ingress of dust and debris into the ducting system
- The unique design provides consistent joint quality and integrity
- No COSHH data to provide
- Independently tested at the BRE (Test report no. 285430)

Key facts

- The Self-Seal Coupling incorporates a uniquely shaped gasket, that on installation, contacts the adjoining duct surface or the adjoining accessory surface, such that the air leakage into and out of the joint is minimised
- The sealing ability of the coupling has been independently tested by the BRE, Test report no. 285430
- The couplings are designed as a simple push-fit onto the ventilation duct and accessories and will stay in place once assembled
- Eliminates the need to seal joints with silicon sealant and duct tape and allows the joint to be dismantled and re-made for alteration, maintenance and cleaning
- Withstands both positive and negative pressure and prevents the ingress of dust and debris into the ducting system to ensure efficient operation and low maintenance.

Monsoon Fresh Air Supply Sets

CODE	DESCRIPTION	PRICE
2404W	100mm White Telescopic Air Supply Set with Diffuser and Enviro Filter	£58.72

WER250	250mm Special HVR Wall Sleeve	£26.11

Monsoon Reversible Axial In-Line Range (REW)

Features:

- To be installed inside ducting
- High pressure profiled blade impeller of polymer
- Reversible ball bearing motor with thermal overload
- Suitable for continuous operation

CODE	DESCRIPTION	PRICE
REW 150/2	150mm Axial Reversible In-Line Fan (330m ³ /Hr)	£123.64
REW 200/2	200mm Axial Reversible In-Line Fan (930m ³ /Hr)	£237.69
BSX	Reversible Speed Controller	£85.10

Monsoon Metal Cased Centrifugal Fans (ILF)

Features:

- Suitable for long duct runs
- Speed controllable
- Moisture resistant IP44, thermal cut outs
- Pre-galvanised steel casing
- Includes mounting bracket

CODE	DESCRIPTION	PRICE
ILF100	100mm In-line Fan (290m ³ /hr)	£93.33

Monsoon Acoustic Cabinet Centrifugal (ACF)

Features:

- Soundproofed acoustic and thermal lined box
- Centrifugal backward-curved impeller with external rotor motor
- Ball bearing motor equipped with Standard Thermal Overload Protection (STOP)
- Fully speed controllable, IP X4

CODE	DESCRIPTION	PRICE
ACF100	100mm Acoustic Cabinet Fan (240m ³ /hr)	£205.49
ACF125	125mm Acoustic Cabinet Fan (330m ³ /hr)	£219.64
ACF150	150mm Acoustic Cabinet Fan (420m ³ /hr)	£245.92
ACF200	200mm Acoustic Cabinet Fan (950m ³ /hr)	£297.58
ACF250	250mm Acoustic Cabinet Fan (1,300m ³ /hr)	£310.65
ACF315	315mm Acoustic Cabinet Fan (2,150m ³ /hr)	£346.88

Monsoon Radon Mitigation Fans (UT)

Features:

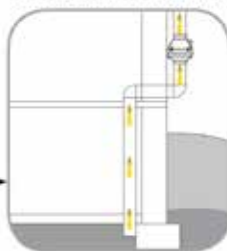

- Non-corrosive, IP65 rated
- Low noise and easy to install
- Ball bearing motor with thermal protection
- Positive pressure fan solutions page 13

CODE	DESCRIPTION	PRICE
UT150/SC	150mm Radon Mitigation Fan White	£273.00
UT150/SC-BLK	150mm Radon Mitigation Fan Black	£273.00

Outdoor installation.

Monsoon Roof

Mounted Mixed Flow Fans (TH)

Features:

- Bases manufactured from sheet steel
- Models 500 & 800 manufactured from high strength moulded plastic
- Models 1300 & 2000 manufactured from pressed steel sheet
- Bird guard and base cable gland entry point as standard
- IP44, Class B with thermal protection and ball bearing motor
- Two speed motor and suitable for speed control

CODE	DESCRIPTION	PRICE
TH-500/150	150mm Mixed Flow Roof Fan (500m ³ /Hr)	£277.66
TH-800/200	200mm Mixed Flow Roof Fan (880m ³ /Hr)	£332.70
TH-1300/250	250mm Mixed Flow Roof Fan (1,150m ³ /Hr)	£558.66

Monsoon Mighty Breeze Range

Features-

- Portable fans for cooling and ventilation
- Designed and built to withstand commercial and industrial environments
- Stylish for use at formal events
- Uniquely powerful sickle bladed motor
- Available in 230v and 110v

Mighty Breeze 30

CODE	DESCRIPTION	PRICE
MB30-230	Mighty Breeze 6,000m ³ /hr 230v Blade Size Ø 360mm	£356.40

Digitemp Air Conditioning & Heating Units

Features:

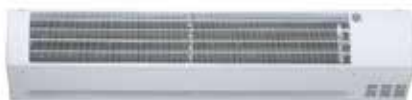

- Revolutionary self-contained design – no external condenser unit
- Delivers up to 2.6kW of cooling/heating energy for every 1kW of power used
- Highly efficient heat pumps consume only 40% of the electricity required by conventional electric heaters
- No specialist installation requirement – 13A electrical supply and no commissioning as unit is self-contained

CODE	DESCRIPTION	PRICE
WA210N	2.1kW Cooling Unit	£2,148.38
WA245N	2.45kW Cooling Unit	£2,211.57
WHP210N	2.1kW Heating and Cooling Unit	£2,211.57
WHP245N	2.45kW Heating and Cooling Unit	£2,401.12

Also available from National Ventilation

Monsoon Ceiling Sweep Fans (HCT)

Features:

- For cooling in summer and energy conservation in winter.
- 3 blade design finished in white.
- Resilient mounting ensures low vibration, speed controllable.
- Two drop rods 150mm and 400mm
- Fully reversible

CODE	DESCRIPTION	PRICE
HCT900	Sweep Fan 36" (900mm)	£68.20
HCT1200	Sweep Fan 48" (1200mm)	£74.40
HCT1400	Sweep Fan 56" (1400mm)	£80.60
HFC-1.7	1.7A Speed Control (up to 4 fans)	£55.80
HFC-3.0	3.0A Speed Control (up to 8 fans)	£58.90
HFC-6.0	6.0A Speed Control (up to 14 fans)	£71.30
HFCFC	Reversible Speed Control (up to 4 fans)	£68.20
HCFC	Automatic Temperature Controller	£384.40

Monsoon Air Circulation Fans (MACF)

Features

- designed to prevent heat stratification and prevents build up of stagnant air
- Motors are Class 'F' insulated, IP55 and are suitable for speed control
- Aerodynamic impeller manufactured from high quality glass reinforced polypropylene

CODE	DESCRIPTION	PRICE
MACF400-4	400mm 4 Pole Air Circulation Fan 1.27m ³ /s, Throw 35-40m	£480.06
MACF400-6	400mm 6 Pole Air Circulation Fan 0.89m ³ /s, Throw 30-35m	£480.06
MACF450-4	450mm 4 Pole Air Circulation Fan 1.70m ³ /s, Throw 40-45m	£489.51
MACF450-6	450mm 6 Pole Air Circulation Fan 1.12m ³ /s, Throw 35-40m	£489.51
MACF500-6	500mm 6 Pole Air Circulation Fan 1.37m ³ /s, Throw 40-45m	£498.96
MACF630-6	630mm 6 Pole Air Circulation Fan 2.86m ³ /s, Throw 45-50m	£680.40

Monsoon Destratification Fans (MDF)

Features

- Improved heat distribution and reduced
- High efficiency fan easily accessible for cleaning and maintenance
- Suspension eyelets fitted as standard for easy installation

CODE	DESCRIPTION	PRICE
MDF500-4	500mm Destrat Fan 4 Pole 1.8m ³ /s	£616.14
MDF630-6	630mm Destrat Fan 4 Pole 2.2m ³ /s	£709.80

Monsoon TD-ATEX Series

Features

- Low profile mixed flow explosion proof fan
- Detachable fan motor without removing from duct
- In accordance with ATEX Directive
- Single phase 230v-50hz
- IP44 Class B insulation

CODE	DESCRIPTION	PRICE
TD-800/200 ATEX	200mm Mixed Flow ATEX 1,020m ³ /hr	£677.71
TD-1100/250 ATEX	250mm Mixed Flow ATEX 1,130m ³ /hr	£964.75
TD-1200/315 ATEX	315mm Mixed Flow ATEX 1,320m ³ /hr	£1,148.93

Monsoon Explosion Proof Plate Fan (HQ)

Features

- For operation in or to move potentially hazardous atmospheres
- Conform to cluster II, category 2G for the operation in Zones 1 & 2
- According to EC-Guidelines 94/9/EG bigger air gaps are specified
- Cannot be speed controlled

Single Phase 4 Pole

CODE	DESCRIPTION	PRICE
HQW 250/4 EX	250mm Explosion Proof Plate Fan (960m ³ /hr)	£1,040.96

Aluminium (FXAL) Aluminium reinforced flexible ducting manufactured from a Multi-Ply aluminium and polyester laminate together with a High Tensile Steel wire helix. In respect of part 20 the duct shall have a fire resistance of not less than 25 minutes.

Insulated Ali (FXALINS) Aluminium reinforced Multi-Ply flexible duct wrapped in a 25mm thick high-density fibreglass for excellent friction loss characteristics and reduced levels of noise generation.

Acoustic Ali (FXALAC) Flexible acoustic ducting constructed from Multi-Ply and polyester laminated inner and outer ducts. The inner duct, continuously perforated with microperforations, combines with a 25mm layer of fibreglass to reduce cross talk and noise generated by in-duct components.

Vinyl (FXV) Manufactured from a tough, grey coloured fabric comprising a PVC coating bonded to a tightly woven glass cloth to provide a tough yet highly flexible, puncture resistant ducting. Supported by an encapsulated high tensile steel wire helix within the fabric overlap provides an exceptionally smooth inner wall resulting in excellent friction loss characteristics.

Semi-Rigid (FXSR) Manufactured from 100% Aluminium, FXSR can be formed into bends and offsets in very short distances and within confined space. The duct naturally retains its corrugation form and in doing so achieves maximum distance between supports without 'sagging'.

Aquaduct for Profiled or Corrugated Roofing and Cladding (ADC)

Features:

- Flexible base- easily formed to match sheet profile
- EPDM rubber- for hot and cold pipes -40 to 115°C (High temp available in silicone red)
- Square base – facilitates easy installation
- Adaptability- suits either standard or retrofit applications
- Simple to fit- sleeve marked with pipe diameters
- Available for small pipe diameters from 3- 50mm

CODE	DESCRIPTION	PRICE
ADC4	Pipe size 75 - 150mm size 155 x 155	£22.10
ADC6	Pipe size 145-250mm Base size 356 x 356	£28.87
ADC8	Pipe size 230-380mm Base size 540 x 597	£55.81
ADC9	Pipe size 315-500mm Base size 650 x 720	£91.22
RFC	Retrofit clips (6 -ADC4, 7-ADC6, 9- ADC8, 11-ADC9	£0.96

Versatile for Slate and Tiled Roofs (VAC)

Features:

- Versatility – suits slate and tiled roofs
- Excellent coverage- from large aluminium malleable base
- EPDM rubber-to suit hot and cold pipes -40 to 115°C (High temp available in silicone red)
- Simple to fit- sleeve marked with pipe diameters
- Flexible pipe sleeves- adjusts to suit roof pitch

CODE	DESCRIPTION	PRICE
VAC3	Pipe size 100-165mm Base size 450 x 600	£38.50
VAC7	Pipe size 180-225mm Base size 600 x 800	£70.95
VAC8	Pipe size 180-350mm Base size 600 x 800	£84.11
VAC9	Pipe size 300-450mm Base size 956 x 956	£140.68

Roofseal for Bituminous Felt Roofing (FR)

Features:

- Unique ribbed base design- excellent adhesion to bitumen
- EPDM rubber-durable, flexible and weatherproof
- Simple to install- no specialist equipment required
- Weathertight seal- stainless steel clamp with each flashing

CODE	DESCRIPTION	PRICE
FR4	Pipe size 110-125mm Base diameter 527mm	£38.17
FR5	Pipe size 150-175mm Base diameter 576mm	£59.65
FR6	Pipe size 200-250mm Base diameter 637mm	£74.39
FR7	Pipe size 275-325mm Base diameter 712mm	£89.01
FR8	Pipe size 359-400mm Base diameter 787mm	£148.87
FR9	Pipe size 490-530mm Base diameter 800mm	£321.73

CODE	DESCRIPTION	PRICE
GX6	Single Speed Axial Extract Fan	£125.15
GX6T	Single Speed Axial Extract Fan with Timer	£132.98
GX6HT	Single Speed Axial Extract Fan with Humidistat & Timer	£157.88
GX6HT2	Two Speed Axial Extract Fan with Humidistat & Timer	£172.69
GXC6	Single Speed Axial Extract Fan with Pullcord	£78.19
GXC6T	Single Speed Axial Extract Fan with Pullcord & Timer	£86.02

Xpelair GX6 EC3 150mm (6") Low Energy EC Kitchen Fans (284m³/hr)

CODE	DESCRIPTION	PRICE
GX6 EC3	2 Speed Fan	£200.09
GX6 EC3R	Reversible Single Speed Fan with Timer	£215.59
GXC6 EC3	2 Speed Fan with Pullcord	£200.09
GX6 EC3 RF	Two Speed Fan with RF Control	£336.42
GX6 EC3R RF	Reversible Single Speed Fan with RF Control	£336.42

Xpelair GX9 & GX12 Window/Wall Mounted Axial Fans

CODE	DESCRIPTION	PRICE
GX9	9" Two Speed* Axial Fan Standard (up to 728m ³ /hr)	£250.37
GXC9	9" Two Speed* Axial Fan High Power Pullcord (up to 549m ³ /hr)	£187.76
GX12	12" Two Speed* Axial Fan Standard (up to 1,614m ³ /hr)	£391.24

* Low speed only applies if fan used with FR22/30 controller. If a controller is not used the fan is single speed (high) only

Xpelair GX9 EC3 & GX12 EC3

Window/Wall Mounted

Axial EC Fans

CODE	DESCRIPTION	PRICE
GX9 EC3	9" Two Speed Axial Fan (up to 847m ³ /hr)	£357.00
GX12 EC3	12" Two Speed Axial Fan (up to 1,675m ³ /hr)	£441.00
GX9 EC3RF	9" Five Speed Axial Fan with RF Control (up to 847m ³ /hr)	£414.75
GX12 EC3RF	12" Five Speed Axial Fan with RF Control (up to 1,675m ³ /hr)	£656.25

Xpelair PX Range

Ceiling/Panel Mounted Axial Fans

CODE	DESCRIPTION	PRICE
PX6	6" Single Speed Axial Fan (up to 246m ³ /hr)	£154.91
PX9	9" Two Speed* Axial Fan (up to 790m ³ /hr)	£338.05
PX12	12" Two Speed* Axial Fan (up to 1,712m ³ /hr)	£338.05

* Low speed only applies if fan used with FR22/30 controller.
If a controller is not used the fan is single speed (high) only

Xpelair RX Range

Commercial Roof Fans

CODE	DESCRIPTION	PRICE
RX6	6" Single Speed Axial Fan (up to 206m ³ /hr)	£203.42
RX9	9" Two Speed* Axial Fan (up to 511m ³ /hr)	£391.24
RX12	12" Two Speed* Axial Fan (up to 1,110m ³ /hr)	£516.46

* Low speed only applies if fan used with FR22/30 controller.
If a controller is not used the fan is single speed (high) only

Xpelair WX Range

Commercial Wall Fans with 'Safe Lock' Telescopic Wall Liner

CODE	DESCRIPTION	PRICE
WX6	6" Single Speed Axial Fan (up to 246m ³ /hr)	£163.91
WX6T	6" Single Speed Axial Fan with Timer (up to 246m ³ /hr)	£178.82
WX9	9" Two Speed* Axial Fan (up to 783m ³ /hr)	£357.70
WX12	12" Two Speed* Axial Fan (up to 1,715m ³ /hr)	£447.14
WX6-WL	6" Single Speed with Metal Telescopic Wall Liner (up to 246m ³ /hr)	£189.82
WX6T-WL	6" Single Speed Timer with Metal Tele Wall Liner (up to 246m ³ /hr)	£205.37
WX9-WL	9" Two Speed* with Metal Telescopic Wall Liner (up to 783m ³ /hr)	£398.51
WX12-WL	12" Two Speed* with Metal Telescopic Wall Liner (up to 1,715m ³ /hr)	£494.79

Ancillaries

Controllers, Sensors and Switches

CODE	DESCRIPTION	PRICE
GX6 EC3 RF Controller	Wireless RF control for GX6 EC3 RF Fan	£71.50
GX9/12 EC3 RF Controller	Variable speed wireless control for GX9/12	£71.50
GX6 EC3R RF Controller	Wireless RF control for GX6 EC3R RF Fan	£71.50
MS2	2 Speed selector	£27.02
MOS	Manual Override Switch for Premier DX200/400	£21.61
DT20B	Delay Timer/Adjustable Run on Control for DX400, GX, PX & RX	£45.38
COS	High/Low Change Over Switch for DX400	£20.83
AQS	Air Quality Sensor with Adjustable Timer	£49.55
LVH	Low Voltage Humidistat for Premier LV Fans	£71.95
FR22/30	2 Speed Reversing Controller for GX, WX, PX & RX	£73.12

Calculating the Right Fan

In order to provide sufficient ventilation it is essential that the correct fan is selected for the application.

1. Firstly calculate the volume of the room (length x width x height)
2. Multiply this by the recommended number of air changes per hour, the total will give the fan performance required, expressed in m³/hr.
3. Find the fan that matches the performance and application.

The above calculations are offered as guidelines only. Discuss your specific requirements with our technical team on 01823 690290.

Recommended Air Changes per Hour

Assembly plants	4-8	Hospitals (Sterilising)	15-25
Auditoriums	6-8	Hospital wards	6-8
Bakeries	20-30	Kitchens (Domestic)	15-25
Banks	4-8	Kitchens (Commercial)	20-30
Bathrooms	5-10	Laboratories*	6-15
Battery rooms*	5-10	Launderettes	10-15
Bedrooms	2-4	Lecture theatres	5-8
Billiard rooms	6-8	Libraries	4-5
Boiler rooms	15-30	Living rooms	3-6
Cafes	10-12	Meeting rooms	5-10
Canteens	8-12	Mushroom houses	6-10
Car parks	5-8	Offices	6-10
Cellars	3-10	Paint rooms*	10-20
Changing rooms	6-8	Plant rooms	10-40
Churches	1-3	Pubs	15-25
Cinemas and theatres	8-12	Recording studios	10-12
Classrooms	5-7	Restaurants	8-12
Cloakrooms	4-6	Retail shops	4-8
Club rooms	12-15	School rooms	5-7
Compressor rooms	10-12	Sheet metal shops	8-12
Conference rooms	6-12	Shower rooms	15-25
Dairies	8-12	Supermarkets	8-15
Dance halls	12-15	Spray booths*	25-50
Dark rooms	10-15	Stores and warehouses	3-6
Dye rooms*	15-30	Squash courts	4-8
Electroplating shops	10-12	Swimming pools	10-15
Engine rooms	15-30	Tanneries*	5-15
Entrance halls	3-5	Toilets (Domestic)	6-10
Factories	8-10	Toilets (Public)	8-15
Foundries	10-20	Utility rooms	15-20
Garages	6-8	Waiting rooms	4-6
Glass houses	25-60	Welding shops	20-30
Gymnasiums	6-10	Workshops	6-10
Hairdressers	10-15		

*These rooms may require an explosion proof, flame proof or anticorrosive fans, please ask our technical team on 01823 690290 for specific requirements.

Quick guide to Bathroom Zones

Bathroom Zone 0

Inside the bath or shower. Any fitting used here must be SELV (max 12v) and a minimum of IPX7 (protected against immersion in water).

Bathroom Zone 1

The area directly above zone 0, limited to a height of 2.25m above the bath or shower. Requires electrical products to have an IPX4 or better.

Products using safety extra low voltage (SELV 12V a.c and 30V d.c) can be used but the transformer must be located outside zones 0,1 & 2 or beyond. If the fitting is fed by a 240V supply a 30ma residual current device (RCD) must also be used to protect the circuit in this zone.

Socket outlets, other than shaver supply units complying with BS EN 61558-2-5 are not allowed within 3m from zone 1.

Bathroom Zone 2

The area beyond zones 0 and 1, stretching 0.6m horizontally and up to 2.25m vertically. Also includes the recessed area of a window with a sill next to the bath. Requires electrical products to have an IPX4 or better. SELV with the transformer located outside of zones 0,1 & 2 or beyond.

Socket outlets, other than shaver supply units complying with BS EN 61558-2-5 are not allowed within 2.4m from zone 2.
