

In this way you can create an infinite number of lighting scenes precisely according to your moods and desires. And when away from home, use a smartphone or tablet PC anywhere with an internet connection to control home lighting for simulating that your home is occupied.

## 2. Download the FREE App

The LIGHTIFY App is available for you to download free of charge (App Store or Google Play Store). It runs on all smartphones and tablets using the operating systems iOS (7 and upwards) and Android (4.1 and upwards).

## 4. Controlling

You can control your light easily and intuitively using the App. Use and create saved lighting scenes, group your light sources individually – Lots of options to let your creativity run free!

## LIGHTIFY is...

### ... joy

The playful handling of light and colors is fun for all ages. Easy control of lighting via an App on a smartphone or tablet.

### ... inspiration

Easily create with LIGHTIFY your own personal favorite atmosphere. Flexibly changeable and individually customizable to your heart's delight.

### ... comfort

With LIGHTIFY you can always adjust your lighting according to your mood. For example with cozy warm white on dreary days.

### ... support

LIGHTIFY can really support your daily routine: For example by allowing you to control your lighting whilst on vacation, letting you simulate that someone is present at home.

control via App

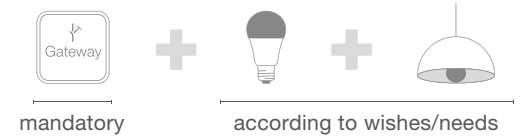

Light is OSRAM

## LIGHTIFY. Conjure up your own personal light

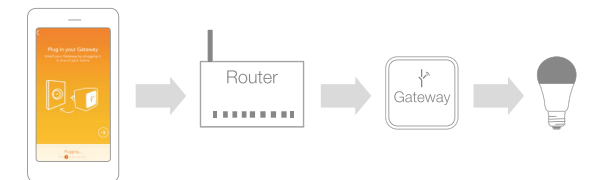

LIGHTIFY is a completely new system for wirelessly networking lamps and luminaires and controlling these via an App. Simply and comfortably switch lighting on and off from your sofa, dim the brightness, select cool or warm white tones or bathe your home in decorative, colored light.

## 1. Selecting products

The heart of LIGHTIFY is the Gateway. This is compulsory for its operation. On the other hand, you are totally free to combine any LIGHTIFY light sources as you wish from a single unit up to a quantity of 50.

## 3. Installing

Just follow the step-by-step instructions in the LIGHTIFY App. You will soon see: The installation is so easy!

## LIGHTIFY basis tools

This accessory is needed to network light sources with your smartphone or tablet.

The core of your LIGHTIFY system:

- LIGHTIFY Gateway**
- The Gateway is mandatory
  - Wireless connection between the App and luminaires / lamps
  - Very simple installation and use
  - Integrated power supply unit

## LIGHTIFY LED lamps

They look just like standard lamps, but offer much, much more. Wirelessly connected with your LIGHTIFY App. Energy efficiency class A+.

Light has never been so colorful:

- LIGHTIFY Classic A60 RGBW**
- Replacement for standard incandescent lamps with E27 bases
  - Infinite number of light colors
  - Smooth cool-to-warm white transition
  - Continuously dimmable

The right light for all moods:

- LIGHTIFY Classic A60 Tunable White**
- Replacement for standard incandescent lamps with E27 bases
  - Smooth cool-to-warm white transition
  - Continuously dimmable

Diversity in its most compact shape:

- LIGHTIFY PAR16 50 Tunable White**
- Replacement for 50 W halogen lamps with GU10 bases
  - Smooth cool-to-warm white transition
  - Continuously dimmable

## LIGHTIFY LED luminaires

Modern designs and fascinating functions: LED luminaires are also controlled wirelessly using the LIGHTIFY App.

Light entirely according to your needs:

- LIGHTIFY Downlight Tunable White**
- Modern, purist design – replacement for 50 W halogen downlights
  - Smooth cool-to-warm white transition
  - Continuously dimmable
  - Energy efficiency class A<sup>1</sup>

Sets highly personal accents:

- LIGHTIFY Surface Light Tunable White**
- Ceiling and wall-mounted luminaire with customizable luminaire cover
  - Smooth cool-to-warm white transition
  - Continuously dimmable
  - Energy efficiency class A<sup>2</sup>

As flexible as you are:

- LIGHTIFY Flex RGBW**
- Self-adhesive flexible LED strip
  - Infinite number of light colors (including white light)
  - Continuously dimmable
  - Energy efficiency class A<sup>2</sup>

## LIGHTIFY LED Gardenspots

Flexible, and also controlled using the App: providing atmospheric interaction of light in the garden and on balconies.

Discreet accents for indoors and outdoors:

- LIGHTIFY Gardenspot Mini White**
- Flexible garden light with nine single spots
  - Smooth cool-to-warm white transition
  - Continuously dimmable
  - Energy efficiency class A<sup>2</sup>

More atmosphere in gardens and in your rooms:

- LIGHTIFY Gardenspot Mini RGB**
- Flexible garden light with nine single spots
  - Infinite number of light colors
  - Smooth cool-to-warm white transition
  - Continuously dimmable
  - Energy efficiency class A<sup>2</sup>

<sup>1</sup> Energy efficiency class of supplied light sources, light sources are replaceable

<sup>2</sup> Energy efficiency class of permanently integrated non-replaceable LED module
