SWITCHES - SOCKETS - HOTEL ROOM SOLUTIONS

## DEFINED BY DESIGN

Retrotouch's high quality product range comprises of Rocker, Touch and Remote Light Switches, Sockets, Wiring Accessories, Thermostats and Audio systems in 3 unique ranges

The Crystal range cleverly combines the latest technology with carefully considered looks. Each unit features glass panels to create a clean and elegant design to suit both modern and classic interiors alike.

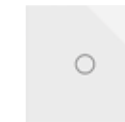

The switches and sockets from the Simplicity range feature interchangeable covers, which means that if and when the decor in a room is changed, new covers can simply be purchased, rather than the expense of fitting new ones. The covers are also easy to fit and remove, clipping over the base cover on the wall without the need to unscrew the unit. The covers can be removed whilst decorating to ensure a crisp, clean finish to complete your interiors.

Ideal for anyone looking for an affordable and stylish way to finish their home, office or hotel, the Boutique collection of thermostats and hotel room solutions are robust, sophisticated and have that premium edge to achieve that special touch to complete any interior.

## GLASS SWITCHES & SOCKETS

Our unique design of switches and sockets cleverly combines the latest technology with carefully considered look.

Designer styling, to suit both modern and classic interiors alike. The Crystal range is available in a variety of appealing glass finishes, to raise the bar in quality, value and ease of use.

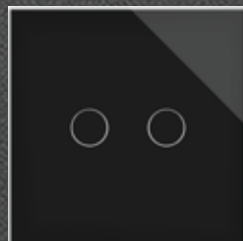

Simply put this is a range of switches and sockets with a touch of glass™.

## GLASS ROCKER LIGHT SWITCHES

Take one look at Retrotouch glass mechanical rocker light switches and you'll see that we stand a cut above the rest.

Our unique design features large, easy to use switches framed by an elegant combination of plain glass or glass with chrome trim. But that's not all, Retrotouch goes the extra mile and brings this together in a package that's so streamlined there isn't a screw in sight...

# GLASS DIMMER SWITCHES

Retrotouch Touch and Remote Dimmer Light Switches combine style and state-of-the-art technology to bring one of the most advanced dimmer light switch on the market. The models incorporate a memory dimming feature which remembers the last dimmer setting, an auto dim up/down function to create a luxurious and sophisticated ambience in any room. The equally elegant rotary dimmer and high performance LED module complete the Retrotouch dimmer line up.

CRYSTAL®  
GLASS SWITCHED SOCKETS

We are proud to present our Retrotouch designer glass plug sockets. Those with an eye for detail will appreciate the fact that we've carefully created a matching plug socket for every light switch and wiring accessories in our range.

We offer options with chrome trim or full glass; all of our plug sockets are screwless. Whether you need a single socket or a standard switched dual socket, we have the perfect item for you.

Our sockets are available with conventional British fittings as well as EU style and multifunction versions.

# SIMPLICITY™

## SWITCHES & SOCKETS

Simplicity is the ideal choice for any contemporary home. Sleek, modern, streamlined design with a sophisticated look to enhance any room. With four different colour varieties available, you're sure to find a shade to match your room, whatever your style.

The covers are interchangeable, so you can change the look whenever you like. You won't have to worry about your switches not matching if you redecorate, and you won't need any complicated re-wiring to change them.

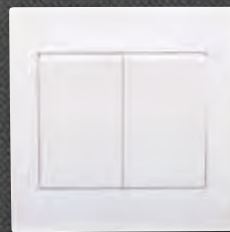

The switches fit easily into a standard 25mm back box. All of our switches are UK-designed, and for further peace of mind, there's a brilliant 10 year guarantee.

At Retrotouch we think 'the small details make the biggest difference.'
