Garden PIR

Wise PIR Hood Radio Sensor IP44

- 2 Channel, available in black or white
- A battery powered sensor - no need to hard wire it
- Can be mounted on the ceiling or wall
- IP44 rated for indoor and outdoor use
- Adjust the time delay, light level and PIR range with the simple dials at the bottom of the eye ball
- The time delay can be adjusted between five seconds and a maximum of five minutes
- PIR sensor works according to how much natural light there is
- PIR detection range of 1 metre to 12 metres
- The eyeball has the word "top" printed on it. This must be at the top when fitted
- Can only be programmed to one channel on the WiseDim box

We strongly recommend not using more than 1 of the PIRs on a single circuit due to problems caused by battery life. It has a range of up to 100 metres from the receiver.

Wireless Keyfobs

Wise Gloss Keyfob Remote

- 1, 2 and 4 button/channel remotes available
- Operates in the same way as the wall mountable wireless WiseStyle Switches but in a hand held key ring attachable form
- Can be programmed to any of the channels on the Wise receivers, with the possibility of adding up to 32 switches
- No need for two way wiring - just add another radio switch and place it where you like
- The battery life lasts up to 2 years
- Keep one with your car keys and switch on your garden/hall lights when you drive up
- There is no limit on how many Wise receivers are programmed to the same remote

Wireless Intense Switches

1, 4 and 7 Channel

- Can control any of the Wise Controls receivers
- The function of the switch, and each of its buttons, depends upon the function of the wireless receiver it is programmed to. Therefore a single button can be used for a variety of functions including, but not restricted to, on/off, on/off and dimming, or master off only
- Switches are surface mounted so can be positioned almost anywhere
- Battery included

Wise Controls

Wise Controls, available from Focus SB, is a system of radio switches and receivers for use throughout the home and garden that can be quickly and easily installed.

Wise Controls can be used to operate your decking lights, shed light, uplighters, wall lights, downlighters, water features, sensor lights, pond pumps, garage doors, electric shutters, electric gates and more!

Once programmed, you can place your wireless radio switches in any position throughout your home, as no cables are needed between the Wise receivers and the switches and you can enjoy switching your circuits from anywhere in your home or garden with the wireless remote control.

A touch of luxury

This system helps to bring your outside space under the same control as your indoor space. Imagine being able to turn the drive way or garden lights on and open the garage door without leaving the comfort of your car on your return home.

TAKE CONTROL OF YOUR OUTSIDE SPACE

Benefits

- **Save Time and Money:** Easy installation no need for hard wired switches
- **Save Energy:** Controlled manually or by a time clock switch to save energy
- **Take Control:** Only those systems need to be turned on when YOU want, total control
- **Program Yourself:** Easy programming of the system supplied with comprehensive instructions
- **Powerful:** Four channels each able to dim from 40 Watts to 700 Watts per channel
- **Flexible:** Each channel can be individually set to switch for non-dimable devices
- **Security:** Deter unwelcome visitors with wireless PIR switching to the device
- **Adaptable:** Can be controlled with remote and hard wired switches
- **Reliability:** Two year guarantee

Peace of mind

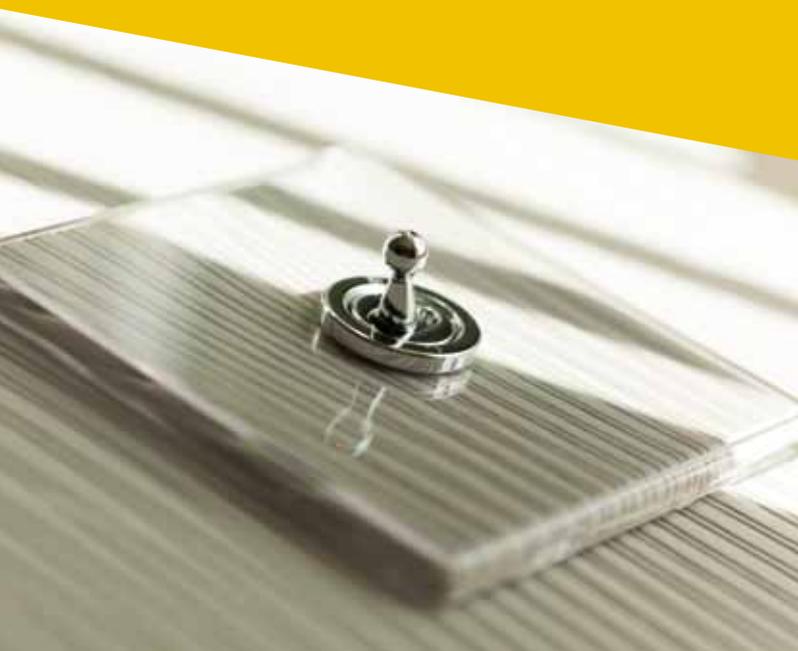

The Wise system can be set with a time clock switch to turn devices on when you are away, so not only can you make your house look occupied, but the garden can also be used as a deterrent towards unwelcome visitors.

Also available from Focus SB

Focus SB manufacture designer switches and sockets for commercial and residential interiors of distinction. Visit our website to view our extensive range of styles and finishes.

Best for Bespoke

Switch on your imagination, we can manufacture electrical accessories exactly how you need them with our Bespoke Service. No job is too small, with no minimum order charge or long lead times.
