

FatMax® LED Voltage Tester

INT082566 - 407822920

List £21.22

FatMax® LED Voltage Tester uses an LED display to show the measured value immediately, polarity is also indicated. The durable body is IP54 rated, meaning it is resistant to debris/water. Voltage: AC/DC 400V

FATMAX

FatMax® Non-Contact Voltage Detector

INT082567 - 407822946

List £22.28

FatMax® Non-Contact Voltage Detector can be used to detect voltage or non-contact metals up to 20mm. Allows you to check voltage in a circuit without contact. The integrated sensitivity adjustment allows you to narrow down the search area of live voltage.

AC Voltage Range: 20-1000V

Metal Detecting Distance: <20mm

Safety Rating: CAT III 600V & CAT II 1000V

FATMAX

FatMax® UK Wall Plug Tester

INT582568 - 407822959

List £16.97

FATMAX

FatMax® Wall Plug Tester quickly checks the status of UK wall plugs. The LED lights clearly indicate a range of wiring conditions such as correct, missing earth and live earth reverse etc. This unit will not detect earth neutral reverse. Designed to Safety Standard EN 61010.
