EASYFIT
ISOLATOR Aladdin

Aladdin Products launch the NEW 22mm *EasyFit Isolation Valve*

WRAS & KIWA Approved - Available NOW!

NLB Engineering Ltd design team are pleased to announce the launch of our NEW 22mm EasyFit Isolation Valve. Due to the success of the 15mm EasyFit Isolator and the demand for quick isolation of larger bore pipes, we have officially launched our 22mm EasyFit Isolator Valve.

When to use Aladdin EasyFit Isolators?

- As an emergency shut-off valve for leaking pipe work or a burst pipe.
- As an emergency isolator where the stopcock is seized or inaccessible.
- To isolate a heating system component for maintenance.
- To save time on cooling, drain down, refilling and returning to de-aerate.
- Where freezing is required, "no need to freeze" use Aladdin EasyFit Isolator to save time without any disruption to services.
- As a convenience device in multi-occupancy buildings (e.g. hotels, shops and HMOs) where water supply needs to be worked on without inconveniencing other occupants.
- When Isolation is required for any water feed hot or cold up-to 16 Bar.
- As a "Green" alternative, particularly to gas-freezing.
- To allow isolation in areas of a building where none exist.

28mm EasyFit due for launch October 2020

ABI Report 2019

Association of British Insurers is urging consumers to act and not get caught out by a frozen or burst pipe this winter.

It was only last year that the cold spell caused by the 'Beast from the East' led to a tenfold increase in claims compared to the previous year for burst pipes caused by bad weather.

A frozen or burst pipe can be extremely inconvenient, even a small rupture can cause a significant amount of damage to your property. It is not cheap to repair. In 2018 the average cost of weather-related insurance claims for burst pipes averaged over £10,000.

Aladdin EasyFit Isolator allows for quick isolation of burst and leaking pipes, stopping the flow of water in under 3 minutes with a WRAS approved isolation valve, subsequently reducing water damage to a minimum.

Why take the risk!

EasyFit Isolators are an essential piece of kit for all plumbers vans!
