

“When our new lodges were ready for a heating system we researched a number of companies. They gave us vague information and we were confused. Then we discovered Rointe and they were able to guide us with professional advice and help. We definitely made the right choice.”

Brand new installation

Shellow Lane Lodges

in Congleton, Cheshire

The right heating choice from the experts.

Located within the stunning Cheshire countryside, Shellow Lane Lodges are luxury, six berth holiday homes that required a flexible heating system for their guests warmth and comfort.

The owners spoke to various companies to find the best solution. However, they were met with confusion and lack of information on the subject of heating. They were frustrated they could not find a professional company to help them install a suitable solution that met the standards they wanted to provide for their guests, so they turned to Rointe.

THE SOLUTION

After a conversation with Shellow Lane, Rointe conducted a site visit by one of our knowledgeable Commercial team to talk through the options that would suit their needs and accurately size the products - key for correct operation and maximum efficiency.

THE RESULT

The Kyros radiator and towel rail system was installed, for flexible heating with 24/7 programming and remote control compatibility. Our after-sales care team were also on hand to answer questions and ensure the customer was happy.

PROFESSIONAL ADVICE

The professional 360° service Rointe provide to their customers is exceptional and we were committed to helping Shellow Lane Lodges find their perfect heating solution, using our knowledge and expertise.
