

INTERIOR LIGHTING

DETA INTERIOR LIGHTING includes an extensive range of Fire Rated Downlights and Surface Luminaires suitable for modern and traditional installations.

Fire Rated Downlights are available in a choice of finishes and are supplied fitted with energy efficient dimmable or non-dimmable LED lamps. Available in a choice of fixed or IP65 options, **Fire Rated Downlights** incorporate a number of unique features and are fully compliant with Building Regulations Part B.

The **Stratus** and **Nimbus** range of **LED Surface Luminaires** deliver an attractive and efficient lighting solution for multiple interior applications. Combining crisp bright light, instant illumination and low power consumption, the **Stratus** range includes 8W mini and 14W surface luminaires in a slim contemporary design. If a more traditional style is required, 14W surface luminaires are available in the **Nimbus** range.
