

LED Bulb 12W B22 Thermoplastic

SKU Code: T522(6000K), T523 (4000K), T524 (3000K)

Technical Specifications

Product Weight	45.4 g
Voltage	175-245V
Base	B22
Lumens	1000lm
Beam Angle	230°
Colour Temperature	3000k - Warm white 4000k - Natural White 6000k - Cool White
Energy Rating	Class A+
Bulb Size	116mm (Height) x 65mm (diameter)

Features

- ▶ High power LEDs delivering class leading 810 Lumen, offers 230° soft and uniform white light.
- ▶ Only 10W, Energy Rating: Class A+, use around 10% energy of the traditional 60W GLS bulbs, and they don't get too hot either so can be safely touched.
- ▶ UK Standard B22 mount (Bayonet Cap), standard A60 globe bulb size: 116mm (Height) x 65mm (diameter), also compliant with all relevant UK and EU safety regulations
- ▶ This model is NOT dimmable, using it with a dimmer will most likely damage the bulb.

Warning

- This product should be installed or maintained by trained electricians.
- Check integrity of the products when unpack the package and make sure there are no any damages, otherwise please call distributors for replacement.
- The distance between the light fixture and any flammable materials must be more than 20cm. The distance between the upper part of the installed light fixture and the ceiling must not be less than 2cm. The light fixture must not be installed into ceilings or walls that contain heat-insulating material.
- Please make sure to cut off power supply before installation, replacement or removal.
- Please read manual carefully and wire correctly.
- Do not remove the stickers on drivers or light fixtures
- Never leave children unattended in the vicinity of the light fixtures and do not allow them to play with electrical devices
- Never allow the fixture to come into contact with open flames or external heat sources, or UV rays.
- The products need special treatment of recycling after service time.
