

## Contactors

### ONE MODULE

PART NO.	DESCRIPTION
<b>H6220s</b>	20A DOUBLE POLE
DIMENSIONS:	CABLE CAPACITY
83 x 18 x 74mm	25mm <sup>2</sup>

Suitable for installation in MK Sentry Consumer Units. Automatically switches higher loads than possible with a time switch eg; off peak tariffs.

A manual override enables the temporary setting of the contactor in either the on or off position in addition to normal automatic operation.

When a contactor is mounted alongside an MCB of greater than 10 amp current rating or two contactors are mounted alongside an MCB or side by side, it is necessary to insert a blank module between them (list no.H5544s).

### TWO MODULE

PART NO.	DESCRIPTION
<b>H6420s</b>	20A FOUR POLE
DIMENSIONS:	CABLE CAPACITY
83 x 36 x 74mm	25mm <sup>2</sup>

### THREE MODULE

PART NO.	DESCRIPTION
<b>H7440s</b>	40A FOUR POLE
DIMENSIONS:	CABLE CAPACITY
83 x 54 x 74mm	25mm <sup>2</sup>
