They may be placed in any position on the appropriate grid or plate.

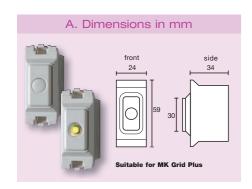

Ideal for use in stairwells, store rooms and in many other applications.

These Grid time lag switches can be operated by slave push buttons, as listed on page 61.

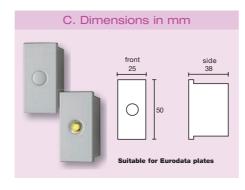

Product options include:

- 2-wire versions (no neutral)
- 3-wire versions (neutral required)
- Versions with illuminated push buttons
- Multi-way switching with matching slaves on 2-wire versions.
