

JC2/JC3- JELLY CRIMPS 8A 2 WAY & 8A 3 WAY

Description:

Used for joining solid core telephone and communications wires. Also used for low voltage lighting Installation. The polypropylene plastic parts is resistant to fungi, heat, solvents and stress cracking agents and compatible with metals and other materials such as conductor insulation and filling compounds used in the manufacture of cable.

- Full compliance to the BTLN 363C specification
- Complies to TR-NWT-000979
- 0.9mm core acceptance
- Test Probe socket
- JC2 suitable for up to 2.06mm overall thickness cable.
- JC3 suitable for up to 1.67mm overall thickness cable.

JC2

JC3
