

NEW

MultiCLIXX

Push in. Insert. Done.

Multi talented and swift

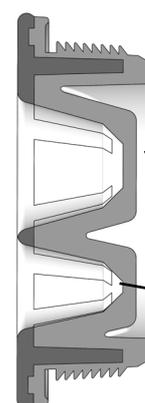

Our new MultiCLIXX grommet offers fast cable installation with strain relief for up to four cables at the same time.

MultiCLIXX combines all advantages of our QUIXX and CLIXX grommets: Simply push into the enclosure and insert the cable. No tool or locknut are needed – thanks to our well-proven two-component moulding.

Temperature range:	-30 °C - 80 °C
Material:	TPE and PP (V0 acc. to UL94)
Thread sizes:	M 32 (other sizes on request)
Cable diameter range:	2 x 7 - 12 mm / 2 x 4 - 8 mm

Your benefits with MultiCLIXX

- **Fast installation:** Push in, insert, done – for maximum time saving.
- **Strain relief:** According to EN 62444, Type A – for up to four cables at the same time.
- **Space-saving:** Its flat construction makes MultiCLIXX extremely space-saving and optically inconspicuous.
- **High protection class:** IP 66.

Easiest cable entry through membrane

Teeth at the inner part provide strain relief on the cable
