All Conlok® malleable boxes are compliant to BSEN61386-21:2004 and are supplied c/w 12.9 Grade grub screws and M4 tapped hole in base for earthing screw.
1 x allen key is supplied in each inner box

How to install Conlok

Cut conduit tube to the desired length & deburr

Insert tube length into required Conlok accessory
(similar to PVC push-fit systems)

Secure tube length with Conlok's built-in grub screw using an Allen key* (one supplied in each box)

Job done

***Please note – Conlok is also compatible with threaded lengths of conduit tube**
