

BD163T

One Module Add-on Block

This combination provides the protective characteristics of both devices, thereby protecting the entire circuit. This results in a significant reduction of time, & cost required.

The one module Add-on Block (AOB) can be used in combination with any Hager 3P 10kA MCB up to 63A.

Requires the use of the adjacent outgoing way.

The 'Type A' Add-On Block gives the added protection against any 'pulsating DC component' generating from such loads as; PCs, motor speed controllers, power tools etc.

One module Add-On Block + MCB combinations suit all Hager distribution boards.

BS EN 61009-1 Appendix G.

For technical details see page 4.67.

For MCB's see page 4.2 - 4.3

3 Phase earth leakage protection  
Up to 63A

| Sensitivity<br><i>I<sub>Δn</sub></i> | <i>I<sub>n</sub></i> /A | Width (70mm) | Cat ref.      |
|--------------------------------------|-------------------------|--------------|---------------|
| 30mA                                 | 63A                     | 4 Mod        | <b>BD163T</b> |
| 100mA                                | 63A                     | 4 Mod        | <b>BE163T</b> |
| 300mA                                | 63A                     | 4 Mod        | <b>BF163T</b> |
