- Built-in photocell detects lux level
- Turn power ON at dusk and OFF at dawn
- Countdown period from 1 hour to 9 hours adjustable
- One single button for easy settings
- Random function
- Override on/off function
- Child protector
- 240V~, 13A, 3120W

Electronic/Photo Cell Wall Switches

- 1-8hrs adjustable light on/off time.
- 3A, 240V/50Hz, 40-400W
- 7 Days / 24hrs.
- with digital function screen

Remote Control On/Off Set

- Fixed code system, no setting required
- Transmission range up to 25 metres
- High frequency: 433.92MHz
- Control up to 3 channels
- Each channel controls up to 3 receivers
- Child protector
- Battery operated transmitter: 23A 12V DC
- Receiver: 240V~, Maximum 1,000W

Rechargeable LED Worklight with Top Flashlight

- With 19 pcs super bright 13000MCD, & 17pcs on the top, the top LED can be used as a flashlight
- Anti-impact rubber housing & high frequency polycarbonate lens
- With On/Off/On push button switch to select work light or flashlight
- With adjustable magnet, it can be fixed to any metal surface

- 360 degrees swivel hanging hook to rotate precisely
- With 3 x 1.2V 800Mah Ni-Cd rechargeable batteries
- Will work upto 5 hours when fully charged
- Comes with 230V charger and DC12V car charger

PIR Detectors

- Detection area: 110°/180°/240° (horizontal) and 30°/60° (vertical) opening angle, max. 12 meters forward
- Duration time: 3±5 seconds to 4±1 minute adjustable
- Lux level: daylight and night adjustable
- 240V~, 50Hz, Max loading; 1000W Incandescent or Halogen / 300W Fluorescent or Low Energy
- IP44 rated

6 gang Power-Cut Socket with Surge Protection

- Automatically cuts off the power of your DVD/Set Top box when you switch off your TV
- 1 Master & 5 Slave outputs

6-Way Extension Lead With Wireless Remote Control

- 6 sockets, 2 with extra space for adaptors & transformers
