Functional description

Are you looking for a way to enter the world of motion detectors? The IS 130-2 infrared motion detector is a STEINEL customer favourite of recent years, not meaning that we're resting on our laurels. We've continued to optimise both its design and technology. The sensor classic is the ideal solution for monitoring areas with precision targeting in front of buildings and on driveways. It also provides excellent quality of detection and can be tailored to the specific conditions on site. The motion detector is wired up so easily and quickly, your neighbour won't even notice you installing it.
