110V / 16A - E13200

OUTLETS
4x 16A

RATING
IP44

WEIGHT
2.5KG

STANDARD
BS EN 6500

Exclusively designed and manufactured by Defender, this 4 way power splitter offers easy and reliable power distribution. For use with power tools and site lighting, the sockets are recessed to prevent shearing when in use and the neon power indicator is easy to see on each socket when the power is switched on. With it's strong and durable outershell, the Spider Ball is tough and long lasting.

- Tough durable nylon and rubber casing tested on site to perform
- Cable management system to help keep tidy and easy to store
- Innovative stackable design
- Rubber strap to ensure cable is fixed and tidy when not in use
- Integrated carry handle to help with easy lifting
- Lightest 4 way splitter in the Defender range
