Complete Customisation

Our LED Strips come in pre-cut lengths from 0.5m to 5m, offering complete versatility and ensuring a quick and easy installation.

This coupled with designated cutting points allows total flexibility for every installation.

LED Strip Drivers

A variety of drivers to suit all types of LED Strip installations. Pick a suitable driver using the wattage and length of your LED Strip.

LED Strip Controllers

Our touch sensitive LED Controllers are required when operating the RGBW LED Strips. Choose between a panel or hand held remote controller.

LED Strip Accessories

A fully compatible range of joiner leads and connectors to heat shrink wrap and mounting screws. Everything you need to complete your installation.
