

Loovent

Toilet and bathroom ventilation

Key Features

- Proven centrifugal fan
- Flow Rate up to 111 m³/hr
- Surface or recessed mounted
- Compact design - smallest 30 l/sec fan in class
- Well proven, centrifugal, filterless technology
- Integral magnetic anti-backdraught flap
- Thermally protected motor
- IPX4 rating
- TÜV approved
- Complies with Building Regulations
- 3 year warranty

Loovent

Highly reliable and powerful fan in a modular design for ease of installation and maintenance.

Loovent centrifugal fans are perfect where longer duct runs are required as they are powerful enough to overcome pressure loss. All Loovents are designed to provide extraction levels that comply with the latest Building Regulations.

The Loovent fan offers an adjustable timer overrun control, ensuring efficient ventilation, which can be used with 100mm ducting. It provides the ideal solution for removing damp moist air, odours and airborne pollutants from en-suites, bathrooms and utility rooms.

The new LOOVENT eco range offers a full range of functionality including SAP Appendix Q approved dMEV versions.

Models

Timer	Remote switch with run on timer adjustable between 5 and 45 minutes
